Head Pro: Joe Scratch **GM:** Crunch Numbers

Peak Scratch Player Times: Noon-ish Fridays or call pro

Footware Policy: Softspikes Required

Walking Policy: Allowed

Cart Fee: \$20-\$23 **Caddies:** Limited-Call Pro

Course Description: Development type set in valley w/ rolling/undulating terrain & average # of primarily oak trees. There are 7 lake/wetlands holes w/ new homes bordering several fairways and lots of OB's. The larger than average, undulating, bent grass greens, as well the course, are normally in great condition although some fairways do not drain well in the winter. Some long walks between holes and nice view of mountains.

Designer: Alister Ross

Year Built: 1992 **Renovated:** '96

Yardage: 100/150/200 Markers

Profile Contributor: Chip N Putt **Date:** 3/1/00

Par: 71 **Rating:** 72.9 **Slope:** 132 **Yards:** 6904

SPG Ranking Score: 6.83

Misc Info: Carts equipped with yardage finders & are required AM weekends/holidays. Pace of play is over 5 hours on weekend afternoons. Scratch "skin game" on Fridays. Do not leave bag unattended. Large range & nice chipping green. Dress code.

Hole	1	2	3	4	5	6
Par	5	3	4	3	4	4
Yards	548	176	408	221	392	457
Score						

1st Hole: Driver down left/center away from bunker cluster on right. 265 yard carry over bunkers but plays 10 to 15 yards shorter. Can carry pond to hit in two if drive over bunkers; otherwise lay-up 85 yards short of green center. Get approach on correct tier.

2nd Hole: Plays one club longer. Front/left bunker is 8 yds short of 33 yrd deep green that slopes back/left to front/right. Stay below back pin or 3 putt likely.

3rd Hole: Driver if can carry corner water (240) otherwise 235 to 250 shot 15 yds right of pond. Blind right side of green is shallow & tough to hold approach. Left side of green is 28 yds deep & slopes back-to-front.

4th Hole: Plays 1/2 club shorter. Left/long is death. Huge green is 41 yds deep & slopes back/left-to-front/right. Short left is tough up 'n dn.

5th Hole: 225 to 240 tee shot at brick chimney. Frwy ends at creek just beyond rise with a pond on the left. 255 to carry creek. Green is shallow behind right bunker & slopes right-to-left.

6th Hole: Driver right/center. Left frwy bunker is 240 carry. Can not carry tree fronting leftside of undulating green. Right of green is tough up 'n dn with right pin.

Hole	7	8	9	out	10	11	12
Par	4	3	5	35	5	4	3
Yards	343	238	604	3387	516	461	198
Score							

7th Hole: Good risk/reward hole with left pin. Driver at flag pole must carry 235 over & right of wetlands; otherwise 180 to 200 tee shot 10 yds left of pole. Long green angles & slopes long/left to short/right.

8th Hole: Native grass carry is 195 to wide green well bunkered on left half. Collection area to right leaves blind pitch & you're toast if right pin.

9th Hole: Left side position, not length, is driver key to avoid punitive right bunkers. Second shot is one club less to optimum point of 130 yds from green center short of hill. Blind approach is one extra club to left-to-right sloping green that is shallow behind left bunker.

10th Hole: Reachable with right-to-left driver around left tree line but OB left & straight goes thru frwy. Second to green is one club less & right of left sloping green is jail. Lay ups to left/center is smart play.

11th Hole: Monster hole. Driver left/center as right side of frwy slopes into undulating rough. Approach is 1/2 club less to huge, undulating green well bunkered on longer right half. Left OB sneaks in deceptively on approach.

12th Hole: Straight forward hole. You see what you get. Green slopes right & left pin is "sucker pin".

Hole	13	14	15	16	17	18	in
Par	4	5	3	4	3	5	36
Yards	428	577	142	396	215	584	3517
Score							

13th Hole: 250 yd carry driver to get over corner tree; otherwise, 265 max tee shot down center. Stay below front pin on undulating, deep green. Cabbage left makes for tough up 'n dn.

14th Hole: Driver 15 yds left of bunker/mounds cluster. Position second 10 yds right of tree grove & must get to w/in 145 yds of green center to avoid blind approach. Front of pond is 55 yds from green center. Do not go over green (OB) that slopes slightly front-to-back.

15th Hole: Plays 1 1/2 club less. Water left & long of deep green sloping back-to-front/right & to left on shallow left side.

16th Hole: Driver is risky as frwy narrows at 255+. 240 max tee shot is wise w/ OB right. Approach is one club more to distinctly two-tiered green that is 10 yds shorter to left side.

17th Hole: 1/2 less club to undulating green sloping back-to-front. Blind area right of green is safe bailout.

18th Hole: "Grip 'n rip" as everything funnels to center & long carries catch downslope for mammoth length and reachability. Lake is 235 to 55 yds from green center. Optimally positioned second is at left mound 140 yds from green center. Tough, undulating & tiered green is long/right to larger short/left & well bunkered on right side.
